## FEEDBACK ON NEW VERSION OF ATRM AMBER MAKE

1. Satisfied with the working of your new meter.
2. Its fast in its process as compare with the older version that we have with us.
3. It is easy to handle.
4. The only thing what I feel is you can eliminate that printing option from it so that it can be more cost effective.
5. Rate is on the higher side.
6. Presently we are having a extension to our manufacturing capacity. So in the coming future we might require your meter.
